

STATE OF THE ART IN ANTERIOR VENEERING TECHNIQUES

3day theoretical & practical program

December 12 to 14, 2019 @ the Geneva Smile Center

Professor Pascal MAGNE, D.M.D., PhD.

The Don and Sybil Harrington Professor of Esthetic Dentistry / Herman Ostrow School of Dentistry

University of Southern California

EduDENT
INTERNATIONAL PRO

Day 1:

Lecture:

Biomimetic concepts driving treatment planning
Research update
Ultraconservative veneering techniques
Material selection

Hands-on:

Basics of dental morphology
Corrective-additive wax-up step-by-step

Day 2:

Lecture:

Preparation & treatment of dental substrates
Preparation designs
Mock-up

Hands-on:

Fabrication of indexes (for preparation & temporaries)
Mock-up
Mockup individualisation (surface staining)
Glazing procedures

Day 3:

Hands-on:

Mock-up driven veneer preparation

Lecture:

Temporary restorations
Luting procedures:

- Veneer pre-treatment
- Tooth treatment
- Composite choice & handling

Repair & maintenance
Immediate Dentin Sealing (IDS)
